1000 Bushels of Charcoal,
Which will be sold on reasonable terms. All orders left with O. N. SWIFT, at the Drug store, will receive prompt attention. fy1 1m

THE PARTING HOUR.

"There's something in the 'parting hour'
Will chill the warmest heart—
Yet kindred, comrades, lovers, friends,
Are fated all to part.
But this I've seen—and many a pang
Has pressed it on my mind—
The one who goes is happier
Than those he leaves behind.

No matter what the journey be,
Adventurous, dangerous, far,
To the wild deep or bleak frontier,
To solitude, or war—
Still something cheers the heart that dares,
In all of human kind,
And those who go are happier
Than those they leave behind.

The bride goes to the bridegroom's home
With doubtings and with tears,
But does not Hope her rainbow spread
Across her cloudy tears?
Alas! the mother who remains,
What comfort can she find
But this—the gone is happier
Than those she leaves behind?

Have you a friend—a comrade dear?
An old and valued friend?
Be sure your term of sweet concourse
At length will have an end!
And when you part—as part you will—
O, take it not unkind
If he who goes is happier
Than you he leaves behind!

God wills it so—and so it is:
The pilgrims on their way,
Tho' worn and weak, more cheerful are
Than all the rest who stay,
And when, at last, poor Man subdued,
Lies down to death resigned,
May to not still be happier far
Than those he leaves behind?"

ARE THE BONDS OF THE UNITED STATES GOOD?

Any one who should form his opinion on this question by reading the articles promulgated by the bankers, through the "commercial papers" of this city, would certainly say no. It is impossible to conceive any argument or any misrepresentation that could be advanced to prove that the bonds and notes of the United States are unsafe as an investment, that has been omitted by these papers. The very figures which prove that no country on earth possesses as great ability to meet its debts as the United States, are transposed to imply the contrary. The amazing fact that the United States Treasury recently held the sum of $52,504,893 in gold, and has a daily revenue of $1,000,000 in the same material, is construed into a sign of approaching insolvency, is advanced as an argument to prove that it is safer for the working classes to invest their savings in private savings banks, under no control or supervision than a company of "smart" financiers, than it is to hold the bonds of the national Government. Now suppose the representations of these bankers and their papers were true, that the national bonds and currency are not safe, that there is a reasonable doubt whether the Government can pay the intrrest and principle of its indebtedness, what is to be the result?

Without going the length of Jay Cooke, by stating that "the National debt is a National blessing" —we say the national debt exists; that the greater portion of it was incurred in preserving the country from division, confusion and anarchy; and every principle of justice, patriotism and honor, demands that it be paid in full. To do so now were impossible, if every creditor demanded gold. It has been necessary to borrow $3,000,000,000 from whoever had the money to lend. The Government has expended that money; and it is represented by bonds bearing interest, and this interest has to be paid on the full amount as the bonds without reference to what price they are bought. It follows, therefor, that whatever cause depreciates these bonds inflicts an injury on the whole nation, because the whole nation is taxed to pay these bonds; and if the present rate of taxation is insufficient for that purpose, additional taxes will have to be levied because the holders of these bonds have a first mortage on the whole property of the nation, individual and general. Some $350,000,000 of these bonds are held by foreigners. Now should these French, German and English creditors of the country ever read the "commercial papers" of this city—and if it were possible for any reasonable being to be influenced by their arguments against the national bonds and currency, these foreigners should be made doubtful as to the ability of the Government to pay, and were to send all their bonds back to be sold, would not such a proceeding bring on a general crash? And who would be the sufferers in such an event? Why the American people. The American people in all the States in the Union except California understand this, and therefore uphold the value of the National bonds and currency, while this State, for the benefit of a few foreign bankers, is doing all it can to destroy the national credit at home and abroad, tolerates the publication of gross falsehoods to effect that object. Actually self-impose additional burdens on the people for the benefit of these bankers! For the bonds of the United States are good, will be paid, and whatever depreciation they suffer, will have to be paid too, by the tax-payers.

INDIANS.—Much has been said and written about these Indians. Malcontents and men who do not want to fight, as the Copperheads did at home, decry the war. But allow me to inform you that the Apache tribe is very large and are now as they ever have been, the sworn enemy to the white race.—Your correspondent from the Maricopa Wells tells you that the Indians commit no murders. *Oh! no, the poor Indians!* Our first experience with these sooty hell-hounds was twenty-five miles from Tucson on the road to Fort Bowie. There one hundred attacked a Mexican train, murdering, on the 12th day of Suly, Mr. Armlong, his wife and infant child together with Mr. James Parker, besides carrying four children to the mountains captive. This was the first scene of murder that company "A" 1st cav., ever saw as a company. Mrs. Armstrong was disemboweled, her child's brains were dashed out and then thrown across her face. Here at one o'clock A. M., C. "A," took an oath to avenge this murder according to the old law.—The next day we received news from Tubac. The Indians attacked the settlement at Calabassa and and murdered five men and all the women and children at the farms. Two days after they attack a government wagon, under escort, from ambush and captured it, killing and wounding several men and horses. It is now no use to enumerate the many bloody deeds of these red devils; suffice it is to say that every week they either attack trains, settlements or kill some traveler. On the 3d of this month they waylaid and attack the mail under escort from Santa Fe, and killed one man. On the 6th the Expressman started for San Francisco river, about three o'clock, P. M., but returned to Fort Whipple at seven o'clock, P. M., shot through the thigh. His wound is severe but not dangerous. These are common occurrences in this country. Life is not safe outside of the garrison, and if a man turns out his horse for half an hour, that horse is forever gone from his gaze. A man by the name of Johnson, left his horse loose in a camp of fifty citizens last week, but going after it found the Indians had taken the hind quarters and left him the balance. The whole of the houses were burned a few days ago in Big Bug District by the Indians, and small parties cannot work or even travel without military escort. CARBINE.

A PIONEER'S GRAVE.

Among those who composed the first prospecting party in the Boise mines, was George Grimes, formerly a resident of Milwaukie, on the Willamette River. The Grimes party, as it is usually called, had crossed from Boise river into the Boise Basin and after passing up what is called Grimes' Creek made camp on the 10th or 11th of August, 1862, at Grimes' Pass. At this time the explorers, numbering about a dozen men, had passed pretty well across the best mines in the Basin, and had found prospects sufficient to establish the fact that they were in rich diggings. Being short of provisions, the party were about to return to the settlements on Powder river for supplies and reinforcements. None but those who have found rich mines after years of toil and ill-success, can properly appreciate the feelings of the members of this little band. The spot where the camp above referred to was made, was singularly adapted for an ambuscade. It is at that point where Grimes Creek, after plunging down out of the isolated stack of mountains, commonly known as Grimes' Creek Mountains, turns from a westerly direction and runs off to the South into Boise River. From a grassy flat right at this bend, it is only fifty feet to the top of the divide between the creek and the Payette river, while the descent to the river cannot be made under four miles of travel, and the perpendicular descent is over fifteen hundred feet. Either way from this pass, the divide rises to a considerable altitude. It was late in the evening, and the party had been engaged in sinking a prospect hole, when two shots were fired from the slope of the mountain above the pass. Some of the men thought that the shots might have been fired by some of their own comrades, but Grimes appeared to apprehend the truth at once. He rushed up the hillside, calling on the party to follow him, and was shot down by one of the savages. In fact, it is not certain that there was more one Indian engaged in the murder, as but one track was ever found—and that was where a savage had plunged down the mountain towards the Payette. Grimes was carried into camp, and almost immediately expired. His comrades hastily threw his body into the prospect hole they had been sinking, and started for the settlements. Later in the fall, when there were thousands of men in the basin, his remains were found in the place where they were left, and the next Spring were taken up and buried on the top of the ridge in what will ever be known as Grimes' Pass. The grave is handsomely enclosed, and has a head-board stating the time of his death and his age, which was thirty years. A more appropriate place for the grave of the brave explorer could not be found. From the Pass there is a beautiful view of the cañon of the Payette and the mountains to the north. Fronting to the southeast, across Grimes' Creek, the mountains rise in benches timbered to the summit. Two hundred feet from the graves, are the spots where he was wounded, where he died, and where he was temporarily buried. At times the dashing waters of the Payette can be heard at this grave, and the creek which bears his name murmurs a perpetual lullaby.—*Dalles Mountaineer.*

FREE TRADE AND PROTECTION. The following reply of Governor Low to the American Free Trade League appears in a late number of the New York *Tribune*;

STATE OF CALIFORNIA, EXECUTIVE DEPT.
SACRAMENTO, Aug. 23, 1364.

SIR: I have the honor to acknowledge the receipt of a circular of the American Free Trade League, inclosing a declaration of principles of the same organization.

The objects sought to be obtained are not very clearly stated; but I judge that it is the intention of the League to bring about the abolition of tariff and internal revenue laws, and compel the raising of all revenues for the Government by direct taxation.

While agreeing with you that "protection" should not be the fundamental principle on which revenue laws are based, yet with the enormous debt with which the Government is now burdened it would, in my judgement, be unwise to abolish duties on imposts, which while levied for purposes of revenue, would necessarily afford "protection," whether so intended by Congress or not.

Until the debt of the country can be very materially reduced, it should, I think, be the policy of the Government and the people to encourage domestic industry, which will enable us to "live within ourselves" as nearly as may be, to restrict foreign importations of foreign goods to the lowest possible limit, so that the exports of American produce may equal in value that of importation, leaving the production of the precious metals to fill the vacuum which has been caused by the drain of gold and silver from our own to foreign countries during the war. If this desirable result can be attained, a very few years will suffice to put our currency on a specie basis.

When this state of things can be brought about and the rebellious states shall be reconstructed and readjusted in the Union; when the industry of the country shall be restored again to its accustomed channels, then it may be desirable to agitate the object of free trade. Until that time shall have arrived I can see only harm as the result of agitating this subject.

With the highest regard for the patriotism and intelligence of those who entertain views differing from mine, I remain, your obedient servant,

F. F. LOW.

CHARLES ASTOR BRISTED, New York.

AN ARGUMENT IN FAVOR OF MATRIMONY.—We never remember to have seen the field canvassed from the point of view here chosen. We present it for the sage consideration of our readers:

"No one will contend that there are no crimes committed by married men. Facts could look an assertion out of countenance. But it may be said with truth that there are very few crimes committed by married men compared with the number committed by those who are married. Whatever faults Voltaire may have had, he certainly showed himself a man of sense when he said "The more married men you have the fewer crimes there will be. Marriage renders a man more virtuous and more wise." An unmarried man is but half of a perfect being, and it requires the other half to make things right; and it cannot be expected that in this imperfect state he can keep the straight path of rectitude any more than a boat with one wing, can keep a straight course. In nine cases out of ten, where married men become drunkards, or where they commit crimes against the peace of the community, the foundation of these acts was laid while in a single state, or where the wife is as sometimes the case, an unsuitable match. Marriage changes the whole current of a man's feelings, and gives him a center for his thoughts, his affections and his acts. Here is a house for the entire man, and the counsel, the affection, the example and the interests of his "better half" keep him from erratic courses, and from falling into a thousand temptations to which he would otherwise be exposed. Therefore, the friend of marriage is the friend to society and to his country. And we have no doubt but a similar effect is produced by marriage on the woman; though from the difference in their labors and the greater exposure to temptation on the part of the man, we have no doubt he can reaps a greater advantage from the restraining influences of marriage than woman does. But as our Heavenly Father said, at a very early period in the existence of human beings: "It is not good for either to be alone."

THE SLEEPING CHILD.

A brook went dancing on its way,
From brook to valley leaping,
And by its sunny margin lay
A lovely infant, sleeping.
The murmur of the parting stream
Broke not the spell which bound him;
Like music breathing in his dream
A lullaby around him.

It is a lovely sight to view,
Within this world of sorrow,
One spot which still retains the hue
That earth from heaven may borrow;
And such was this—a scene so fair,
Arrayed in summer brightness,
And one poor being resting there—
One soul of radiant whiteness.

What happy dreams, fair child, are given
To cast their sunshine o'er thee?
What cord unites that soul to Heaven,
Where visions glide before thee?
For wandering smiles of cloudless mirth
O'er thy glad features beaming,
Say, not a thought—a form of earth,
Alloys thine hour of dreaming!

A FEMALE DOCTOR.—A STRANGE STORY.—Here is a woman who did keep a secret! She kept it all her life, and was only betrayed by death itself. It is indeed a "strange story."

"An incident is just now being discussed in military circles so extraordinary that were not its truth capable of being vouched for by official authority, the narration would certainly be deemed absolutely incredible. Our officers quartered at the Cape, between fifteen and twenty years ago, may remember a certain Dr. Barry, attached to the medical staff there, and enjoying a reputation for considerable skill in his profession, especially for firmness, decision, and rapidity in difficult operations. This gentleman had entered the army in 1813, had passed, of course, through the grades of assistant-surgeon and surgeon in various regiments, and had served as such in various quarters of the globe. His professional, acquirements had procured for him his promotion to the staff at the Cape. He was clever and agreeable, save for the drawback of a most quarrelsome temper, and an inordinate addition to argument. He was excessively plain, of feeble proportions, and labored under the imperfection of a ludicrously squeaking voice. Any natural 'chaffing' with regard to these, however, especially roused his ire, but was at length discontinued on his 'calling out' a persevering offender, and shooting him through the lungs. About 1840 he became promoted to be medical inspector, and was transferred to Malta. There he was equally distinguished by his skill and by his pugnacious propensities, the latter becoming so inconveniently developed upon the slightest difference of opinion with him, that at last no notice was allowed to be taken of his fits of temper. He proceeded from Malta to Corfu, where he was quartered for many years, still conspicious for the same peculiarities. When the government ceded the Ionian Islands to Greece, and the troops, of course, quitted the territory, Dr. Barry elected to leave the army and take up his residence for the rest of his days at Corfu. He there died about a month ago, and upon his death was discovered to be a woman! Very probably this discovery was elicited during the natural preparation for interment, but there seems to be an idea prevalent that either verbally, during the illness, or by some writing, perused immediately after his (for we must still use the 'masculine') death, he had begged to be buried with ut a post-*mortem* examination of any sort. This, most likely only aroused the curiosity of the two nurses who attended him, for it was to them, it appears, that the disclosure of this mystery is owing. Under the circumstances, the fact was deemed so important that medical testimony was called in to report upon and record the truth. By this investigation not only was the assertion placed beyond a doubt, but it was equally brought to light that the individual in question had at some time or another been a mother! This is all that is as yet known of this extraordinary story. The motives that occasioned and the time when commenced this singular deception are both shrouded in mystery."

MADEMOISELLE RACHAEL AND THE EMPEROR NICHOLAS.—At the last meeting of the Society for the History of Potsdam, the chairman, Hofrath Schneider, related the following anecdote of Mdlle Rachael, who was to give a theatrical performance on the Pfauen-Insel, before the Prussian and the Russian Courts:

"The performance was to take place under an open sky on the 13th of July, 1852. It was intended as a surprise for the Emperor Nicholas, who would not hear of Mdlle Rachel nor allow her to enter his empire, on account of her republicanism, which, so far as we know, consisted in her performance of the 'Marseillaise,' in 1848, an artistical performance, and nothing more. However, the emperor chose to make her a martyr for her political sentiments; and it was the intention of the Prussian Court to make him a convert. Mdlle Rachel appeared, dressed quite in black, in costly lace. Hofrath Schneider observed to her that she could not appear like that at Court, and at a gay festival. One of the royal princesses helped her out of the difficulty by furnishing articles of her own toilette. Arrived on the island, Rachel took to the stage; no stage has been provided; the tragic actress is expected to act on the lawn in its natural state, and the Court to look on sitting on chairs near the castle, Rachel is indignant, and on the point to turn her back to the scene. But Hofrath Schneider knew how to persuade, and to make the Russian roubles shine before the mental eyes of the artiste, and she remained. A few lights were placed in glasses, and behind the fountains. Rachel began to act different scenes from French tragedies, and so overpowered her auditory, that the Emperor Nicholas sprang up and kissed her hand. The empress smiled, and expressed her admiration. The barrier of the Russian frontier fell; and, as a remembrance of the evening, a bust in white marble of the great tragedian has been placed on the spot of her triumph."

A RICH old widower in Canada is said to have practised a very artful scheme to gain the hand of the belle of a village. He got an old gipsy to tell the young lady's fortune in the words that he dictated, as follows: "My dear young lady, your star will soon be hid for a short time by a very dark cloud, but it reappears it will continue to shine with uninterrupted slendor until the end of your days. Before one week a wealthy old widower, wearing a suit of black and a fine castor hat, will pay you a visit and request your hand in marriage. You will accept his offer, become his wife, and be left a widow in the possession of all his property, before the close of this year. Your next husband will be a young man of whom you will be most sincerely loved." Three days after, the old gentleman, dressed in the manner described by the gipsy, presented himself to the young lady, and the marriage followed.

Two cinnamon bears were caught at Flint Ranch, near Fall Creek, in Nevada county, the week, weighing two hundred pounds each.

LATE Eastern papers give Cony Union candidate for Governor of Maine 32,000—a gain of 6,000 over last year.

DUTCH FLAT ENQUIRER.

SATURDAY MORNING, NOV. 11, 1865.

Now, by St. Paul, the work goes bravely on,
The Stars and Stripes are up for Liberty,
Flag of the Nation—Talisman of the Free,
Curs'd be the hand that dares to pull thee down.

THE WEEK.—All of the November elections, so far as heard from, have gone overwhelmingly Union, substantially giving the lie to the Copperhead assertion that the heroic defenders of the Union would, when returned to their homes, vote the "Democratic" ticket. The loyal legions of our sister State, Nevada, have wiped out the last vestige of Copperhead hope in that quarter, by triumphantly electing Delos R. Ashley over Master Mitchell, to Congress. Every county in the State gave Union majorities.

The Southern States are reluctantly yielding to "reconstruction," but whether up n the policy of President Johnson, or that of the Auburn *Stars and Stripes*, "deponent sayeth not." Some of them have elected disloyal officers.

Fenian enthusiasm at the East continues unabated, and bids fair to cause our "neutral" cousin, John Bull, to experience a shaky sensation about the knees. According to latest advices a Congress of the Brotherhood were deliberating in the city of New York with closed doors. This would s em to indicate that they "meant business."

No earthquake at San Francisco the past week.

☞ We beg to inform the readers of the ENQUIRER that "ye editor" is quite ill this week, and that we—(hang that "we." Well, when we—there it goes again—use it, we mean "Yours truly," *alias* "Quitman")—are as much out of place in an editorial sanctum as a Copperhead would be in office. We make this simple statement that our readers may be enabled to determine why it is that we present more interesting original matter in this issue than usual. With a promise to "put in our biggest licks," we touch the beaver which sits so majestically on our "clay-head," make one of our most affable bows, and invoke the charity of our readers.

☞ We welcome the return to our town of many of our most worthy and energetic miners, who have been, during the Summer and Fall, engaged in prospecting and exploring the mountains above us; or more properly speaking, perhaps, to our east. The boys all look well; some have "struck it," and those who have not, bear their ill luck with characteristic complacency. We are admonished to remark before concluding this notice, that no class of men on earth are entitled to more praise or gratitude, than the hardy, adventurous pioneers. In a mineral region like ours, it would be difficult indeed, to estimate the value of their services.

☞ Accounts from the new and rich district of Excelsior continue flattering. Several new "*strikes*" are reported that promises to excell the Excelsior itself. We learn from what we consider good authority, that the Rattle Snake Company have struck a rich deposit of one in their shaft at a depth of thirty-feet. This will be good news to any stockholder who might have thought that he had been gitten "mit a Snattle-Rake." Our friend "Quitman" also, assures us that the "indications" in the "Pewterinctum" were never better.

CHANGE.—The Pioneer Stage company have changed their office, from Wells, Fargo's, to the Dutch Flat Hotel, and Nelson I. Hammond Esq., the polite and accommodating gentleman, will in the future, officiate as agent. Mr. Hammond, is in every way eminently qualified for the position, and we congratulate the traveling public, and the company as well, upon the acquisition of his services.

OUR GROWL.—Of all the unspeakably intolerable nuisances, that has come under our notice, the many half-starved "K. 9's" that infest our town, bears the palm. Night is frequently rendered hideous by the howlings of these infernal curs. Those who have valuable "dorgs" take warning, for we have heard parties threaten a resort to a "cup of cold pizen."

LIVELY.—For the past few days our city has presented an unusually lively appearance. Our streets have been crowded with teams delivering merchants their winter stocks; four stages arrive and de art daily; strangers are flocking in; the "Mite Society" has been revived under favorable auspices, and things in general begin to crop out lovely. So mote it be.

THE WEATHER.—We have plenty of this commodity just at this time, and that, too, of the best quality. Rather too much. Business of all kinds languisheth in consequence thereof. The days are just warm and pleasant enough to be comfortable, and the nights sufficiently cool to create a desire for sleeping double. An instalment of rain, however, would be preferable to this state of things.

☞ Work on the Pacific Railroad is being prosecuted with great vigor along the entire line between this place and Colfax, the present terminus. A large force of laborers are employed, and it is confidently believed that the Iron Horse will make its "first appearance" at this place by the middle or last of December at the farthest.

☞ The Dutch Flat and Donner Lake road is in excellent order, and the amount of travel on it is immense. The stages, per this route, are making good time; arriving regularly in advance of time. And usually jammed with passengers. The drivers are accomplished jehus and the agents attentive affable gentlemen.

GOLD RUN.—Our neighboring town of Gold Run is one among the liveliest little towns in the mountains. Many substantial buildings are being erected, miners active, etc., etc. Long may she wave.

SWISS BELLRINGERS.—This troupe performed here on Wednesday evening last, to a crowded house. Their performance is good and merits the approbation of the public. Little Clara is a trump—whole team of herself.

CHOLERA-PARTS just down from Meadow Lake report the weather at that altitude uncomfortably cold—colder, if osible, than the blood in a coquette's heart—or the coffee in a Colfax restaurant.

THE Herald says there were nine thousand four hundred and forty-three bushels of sweet potatoes raised in San Joaquin county this year.

The company of Barrel-Mustached Minstrels, "Billings" & Co., a few—very few—of our citizens night before last.

LETTER FROM SACRAMENTO.

[FROM AN OCCASIONAL CORRESPONDENT.]

SACRAMENTO, November 8th, 1865.

FRIEND BOUST.—Just as I had closed my last, and leaned back in my chair to take a parting whiff at my "Meerschaum" prior to awalk for the nearest letter box of Wells, Fargo & Co. the "Union Brass Band" struck up one of their liveliest pieces almost opposite my window. I was startled—astonished—bewildered; could it be me they ment to serenade? What had I done to entitle me to such distinction? Busied with these thoughts, my eye caught the superscription of the letter on my table and I at once exclaimed, Why, I've written for the DUTCH FLAT ENQUIRER! Its certainly me!! I must ask them in; make a speech, &c. But just here, and as I was goi g to rouse the house to ransack the kitchen and cellar and set the table, and while I was regretting there was no Champagne in the house, it occurred to me that none of my effusions had yet been published, the previous one having arrived too late. Down went all my enthusiasm to zero in an instant, and seizing my scrawl, turning down the light, and laying down my pipe, I rushed out on m. errand and back to bed without ever asking a singl question about the music. I don't think I have half so high an opinion of Brass music as formerly.

I have since learned that expecting the Battle Flag of the "California Hundred" up by the San Francisco boat, Col. McGarry had called the band together to welcome the custodians of the banner, and in order to keep things lively and have a good time, was having them serenade the celebrities of the town, and then around among his friends promiscuously, taking the chances of entertainment, of course. The flag or "Guidon" was duly received and deposited in the office of Adjutant General Evans. It shows marks of service, and will be a treasured memento of the sixty of the "Hundred" who fell beneath its folds in defense of the Union.

Our District Court has lately been the scene of an exciting trial between Mok-lumne Hill and San Andreas over the county seat of Calaveras. It appears that an election was held in April, 63, under a law passed by the Legislature of that year, to decide between the places above named; and as to usual in all such elections much fraud was resor ts to on both sides; Mok. Hill gained the day. After two years owever the San Andreas folks conclude that there were more fraudulent votes than the majority claimed for the Hill, and hence this suit The attorneys on both sides were very savage, and much recrimination was indulged in; and the Mok Hill poll list, upon which appeared the names of Jeff Davis, Beauregard, Bragg and nearly every rebel leader of note, was successively ridiculed and defended through five long speeches and two days direct and cross examination of witnesses. The jury found a special verdict in which it was decided that San Andreas received the greatest number of leg l votes, but that there was one point in the law which she had not complied with, relating to the expenses of removal, and that therefore the election was void. This remin ls one of the famous "Archey decision," by our Supreme Court, which gave the law to the nigger, but gave the nigger to his master, for it leaves the seat still at the Hill notwith standing the election was against her. But such is law.

A very singular, although distressing railroad accid nt occurred here last evening. Two little b ys neither over three years old, who had been lost, were found by the side of the track, badly bruised, one entirely insensible. It was evident that they had been playing along the track and when the cars came along were either too busy or too much frightened to get out of the way. Strange to say neither is considered dangerously hurt.

A small conflagration took place yesterday morning on Fifth street, near the corner of J by which the State is a sufferer to the extent of $500.00 or $2 000,00. The fire was undo ubtedly the work of an incendiary. A building occupied by C. C. Allen as a bird-cage manufactory was entirely destroyed; his loss is put down at $15.00 dollars, Insurance 700. The damage to the State was in canv s tents, which were stored in a building, the back part of which joins Alle ' premises.

A stroll among the stone cutters about the new State Capitol to day satisfied me that the completion of the first story of that stately edifice is an event which may be looked for at no distant day. Part of the front wall has already reached an elevation of 24 feet, and part of dentated cornice is now in place. In walking over the massive walls, one is struck with wonder at the immense work already completed, and can but be amazed at the labyrinth of rooms and halls spread out below him. The arching over of the rotunda is progressing rapidly and its four niches, for statuary, stand gaping as if in wonder as to who will be their occupants. Your correspondent is at their service should he ever have the good fortune to undergo petrifaction.

Speaking of the Capitol, the Navigation Co's new boat so long dubbed, Pacific, is to be called the Capitol, or Capitol, for which we Sacramentans are very thankful, and will agree to frown down any "Opposition" that may spring up, or undergo another blow-up at the earliest convenience of the company.

Our "Philharmonics," are again rehearsi g, and will soon favor us with the first Concert of the season.

I see I hardly tell you that the appointment of 6 new collectors of Customs for San Francisco has caused a little stir in the lower stratum of our political formation, for you have already surmised as much. Friend Boust, we have several of the fossils of that group snugly stored in that cabinet, that I very much fear will be laid out in the w ather to crumble away and be l s 'a isn't it?

You have of course heard of the shaping of the C. P. R. R. locomotive and the pioneer of Jeemes Buchannans "Dromedary line." The idea seems to have been to push the Camel on to your town ahead of the cars, and thus vindicate the wisdom of the Old Pub Funct's policy, so as to aid the sale of the book he is soon to publish; but like all the plans of "Jeemes" and his friends—it didn't win, yet it was a bold effort and did great credit to the Camel, for he took great *pains*. Pity it had not been reversed, letting the Camel write the book, and Old Buck, buck the Locomotive, and take the pains. DELVOS.

MEADOW LAKE MINES.—A correspondent writing from Meadow Lake, says that the Enterprise is the leading mine of that region and every blast that is made in the ledge shows richer ore than above. This mine more resembles a huge quarry than a ledge. Some of the old locations, the Excelsior, Pacific, Wisconsin, and Reporter, are being worked, and show much better in mineral than has ever been expected by the owners. Of the new locations, some have developed fine ledges, which may prove equally as rich as the famous Enterprise. Among them are the Old Boy, Gibralter, Rosebuck, Winnemucca, Little Chief, and Shooting Star. It is thought now that as many as four hundred people will pass the Winter in the District.—*Transcript.*

A SAN FRANCISCO dispatch to the Sacramento *Bee* says the appointment of General Miller to the Collectorship, has created the utmost consternation among the officials of the radical stripe; they imagine that they can read their own fate in that of Col. James.

FIRST NATIONAL BANK.—The first National Bank organized on this coast—at Austin, Nevada State—appears to have started out with a lively business. Its receipts of silver bullion, on the day it opened, amounted to 24,100 ounces—12,500 ounces from the Diana mine, and 11,000 from the Whitlatch Yankee Blade.

FENIAN ORGAN.—The Irish People, a weekly journal, made its appearance at S n F ancisco last Saturday. It is a neat, eight-paged sheet, and is to be devoted to the interests of the Fenian movement. The name of the editor and publisher does not appear.

DISTRICT COURT CALENDAR

November Term, 1865.

E. Gay vs R Warren et al.; E. L. Bradley, Intervenor; M. W. Crary vs Thomas Campbell et al; Adolia Hill vs James Smith; J. Mariner vs R. Smith et al; Geo. Johnston vs C. H. Mitchell ET AL; J. E. DISTRICT COURT PROCEEDINGS.

November Term, 1865.

Hon. T. B. McFarland, Presiding.

MONDAY, Nov. 6th.

Winspear vs Blake—Order for Commission to take deposition of witness for Plaintiff. E. Gay vs G. R. Warren et al Set for trial Nov. 11th. Schellhouse vs Schellhouse—Set for trial on the 13th instant. Kohn & Kind vs Lan Yak & Co., Set for trial on the 14th inst. Arnold vs Boust ET AL—Set for the 15th inst. Stanton vs Bullock ET AL.—Set for trial on the 16th inst. Keiser vs Parsons & Tyler—Set for trial on the 23rd inst. Arnold vs Boust ET AL—Demurrer overruled and Defendant allowed until Monday next to answer. Courtright vs Bear River Co.—Filed findings of Court; cause dismissed for want of jurisdiction.

QUARTZ—ANHYDROU SILICA.

EDITOR ENQUIRER.—Will you please allow me to say a few words in reply to "Disintegration," through your valuable paper? although to answer and define the writer's question, only to the extent of knowledge and experience—it would require volumes to do so. The questions are *so many* at one time. There are two principal methods of assaying a substance, viz:—by means of heat, or with solid reagents—and by the wet way—or with liquid reagents; electricity supplies, also a third method. The last method is only used for what is termed "Natural Printing" *i. e.* to copy or coat objects, plants, leaves, with copper, or various alloys (of course when in solution.) Whether Nature herself has a chemical laboratory in this particular point of view—would be foolish for me to assert, or deny. But, Sir! We have plenty other re agents more accurate, and perfect, for to precipitate the precious metals from their solution—than electricity. Silver can be precipitated by most any metal, also by liquid reagents, copper by metalic iron, gold by vitriol of iron *et cetera*. Why and how this is? space and time will not permit to state. Crystalography has also its many why's and how's. "I look upon Quartz as ore," is the assertion of the writer. I say:—I look upon Quartz as Quartz.

If the writer should ask me:—What is Quartz? I would say, to go near the Enquirer office, and cast a glance along the canon in an east—or westerly direction, and he will behold Quartz in all its glory; opaque, translucent, or transparent, frequently of brilliant and varied colors, crystalizes in the rhombohedral system, easily melted with the assistance of borax, or caustic alkali—harder than steel or glass. Let him analyse it (if he can) and he will find the composition:—Silicium, 48,03; Oxygen, 61,95—100. If it should contain any metal, I would call it ore. That "stamping or grinding" is not the proper way to obtin all the precious metal—is as old as it is true; but that it is the speediest and most profitable way (in this country) when not too much injurious metal is present, is never-theless true. Scienc has advance fo far that there is no more trouble of extracting all the precious metals—but the identical question is, will it pay? The "clorination process" is now successfull worked in San Francisco—needs no motive power, and extrets all the precious metal. As I have stated to go into a discussion about the reason how, and why, it would be absolutely necessary, to dwell upon one question at a time, and then if the writer is well informed you would have to print, many columns, perhaps tedious to yourself, and the many readers of the Enquirer. CLORINATION.

ARRIVALS AT THE NATIONAL HOTEL.

During the week ending November 11, 1865.

DUTCH FLAT MARKETS.

REVISED AND CORRECTED WEEKLY BY FRED. BUCKHALTER.

DUTCH FLAT, NOV. 4th, 1865.

The following prices are given upon strictly a cash basis, or satisfactory town acceptances:

FLOUR, per one hundred pounds, $4 50 @ $5 75
MIDDLINGS, per one hundred pounds, as per quality, rate at $2 50, $3 00 @ $3 50.
SHORTS, per hundred pounds, as in quality, $2 @ $2 00.
BARLEY, per one hundred pounds, good feed, $2 12½.
POTATOES, per one hundred pounds, No. 1 Mission, $3.
WHEAT, per one hundred pounds, $3 @ $3 50.
BACON, prime artice per hundred pounds, 32½ cents per pound.
HAMS, per one hundred pounds, 30 cents ₩ ℔
LARD, in 10 ℔ cans, $3 25 @ $3 50
SUGAR, Crushed, Circle A, ₩ bll., 18¾ cents ₩ ℔
" " ₩ ½bll. 19 " ₩ ℔
COFFEE SUGAR, ₩ bll. Yellow C, 15¾ cents ₩ ℔
ISLAND do ₩ ½bll. as per quality, 14 @ 15¾ ₩ ℔
BUTTER, per keg, as per quality, 25 @ 35 cents ₩ ℔
DRIED APPLES, ₩ ½bll., strictly No. 1, 18¾ ₩ ℔
DRIED PEACHES, ₩ 100 ℔ California No. 1, 17 ₩ ℔
CANDLES, ₩ box, $8 00 @ 9 25
KEROSENE OIL, ₩ 5 gallon cans, $10 00
STEEL, Pick and Drill, by the bar, ₩ ℔ 22 @ 22½ cents.
BLASTING POWDER, $4 50 ₩ $5 50.

HAPPINESS OR MISERY—THAT IS THE QUESTION.—THE PROFESSORS of the "PACIFIC MUSEUM of Anatomy and Science," have determined, regardless of expense, to issue cards (for the benefit of suffering humanity) four of their most interesting and humorous LECTURES on Manhood, and its disqualifications; Nervous Debility, Premature Decay of Manhood, Impotency, Weakness of Impressible, Loss of Memory and Vital Power, the great Social Evil, and those maladies that result from youthful follies, excesses of maturity, or ignorance of Physiology and Nature's Laws.

These invaluable Lectures are from the means of enlightening and saving thousands, and will be forwarded, free of charge, on receipt of Twenty-five Cents, to cover postage by addressing the Secretary Pacific Museum of Anatomy and Science, No. 416 Sansom Street, San Francisco, Cal.

Lectures to be sent through Wells, Fargo & Co. 6y1 lm

NOTICE.

I HEREBY GIVEN THAT I HAVE IN MY possession a small dark iron-gray horse, branded on the right hip with IH four inches long, white left hind foot, and to between three and four years old. The said horse is supposed to have been stolen. The owner is required to come forward, prove property and take it away, or it will be dealt with according to law. The horse can be seen any time by calling on FLETCHER'S STATION,
oct28-3w In Yuba above Dutch Flat.

UNITED STATES 7-30 LOAN.

BY AUTHORITY OF THE SECRETARY OF THE Treasury, the undersigned has assumed the General Subscription Agency for the sale of United States Treasury Notes, bearing seven and three-tenths per cent. interest per annum, known as the

SEVEN-THIRTY LOAN.

These Notes are issued under date June 15th, 1865, and are payable three years from that time, in currency, or are convertible, at the option of the holder, into

United States 5-20 Sixes per cent.

GOLD BEARING BONDS.

These bonds are now worth a premium of nine per cent. including gold interest from November, which makes the actual profit on the 7-30 loan at current rates, including interest, about 10 per cent. per annum, besides its EXEMPTION FROM STATE AND MUNICIPAL TAXATION, WHICH ADDS FROM ONE TO THREE PER CENT. MORE, according to the rate levied on other property. The interest is payable in currency semi-annually, by coupons attached to each note which may be cut off and sold to any bank or banker.

The interest amounts to

One cent per day on a $50 note.
Two cents per day on a $100 note.
Ten cents per day on a $500 note.
Twenty cents per day on a $1,000 note.
One dollar per day on a $5,000 note.

Notes of all denominations named will be promptly furnished upon receipt of subscriptions. This is

THE ONLY LOAN IN MARKET

now offered by the Government, and it is confidently expected that its superior advantages will make it the

Great Popular Loan of the People.

Less than $300,000,000 of the loan authorized by the last Congress, are now on the market.

This amount at the rate at which it is being absorbed, will all be subscribed for within four months, when the notes will undoubtedly command a premium, as has uniformly been the case on closing the subscriptions to other Loans.

In order that citizens of every town and section of the country may be afforded facilities for taking the loans, the National Bank, State Banks, and Private Bankers throughout the country have generally agreed to receive subscriptions at par. Subscribers will select their own agents, in whom they have confidence, and who only are to be responsible for the delivery of the notes for which they receive orders.

JAY COOKE,
Subscription Agent, Philadelphia.
March 25, 1865. ma6 3m3p

ADDENDUM.

PER OVERLAND TELEGRAPH:

PHILADELPHIA, May 17th, 1865.

2d Series all sold. Commenced on third Series Two Hundred and Thirty Millions (230,000,000) precisely like other two Series, except dated 15th July, and Government reserves the right to pay six per cent. in Gold instead of 7-30 Currency.

JAY COOKE,
Subscription Agent, Philadelphia.

DISSOLUTION.

NOTICE is hereby given that the copartnership heretofore existing and known under the style and name of Lambard & Giles, was dissolved by mutual consent on October 10th, 1865. H. Lumbard is authorized to collect all bills and receipt for the same, and pay all outstanding indebtedness of the old firm.

H. LUMBARD,
October 10, 1864. 1m J. GILES.

ADMINISTRATOR'S NOTICE.

BUSY.

The rainy season, it is expected, will set in at an early day, and our miners with an eye single to this fact, are unusually busy improving, remodelling and fitting up their claims. Many new mines will be opened, the approaching winter, and if kind providence "or any other man"—will only furnish an adequate supply of water, Dutch Flat "will pan-out" more of the "circulating medium" this season, than at any other period in its history, and we dare say more than any other district in the State.

The extent, richness and stability of our mines does not admit of a doubt; Our miners are enterprising; ditches capacious, and as above stated, if the "clerk of the weather" will only condescend to turn himself louse or go on a "TARE" until a bontiful supply of the needful (water) is vouchsafed us our shipments of dust will "Unfold a tale" that will astonish the natives. Then, the Rail-road is coming too. Wait for the wagon boys.

MORE MURDER.—On Tuesday morning last, at a quarter to nine o'clock, the boiler of the Pennsylvania quartz-mill, at Nevada, exploded, was hurled a distance of over one hundred yards, utterly demolishing a dwelling house which stood in its path, and killing Mrs. Marion Hutchinson, who was alone in the house. Two men employed in the mill were slightly injured. The accident was the result of ignorance and carelessness on the part of the engineer—an incompetent man, employed by the company at a lower rate than a capable man could be hired for. It is high time that this species of murder should be restricted; and the Nevada county Grand Jury, now in session, will probably find a bill of indictment against the immediately guilty party in this sad affair.

FIRE MEETING.—Pursuant to notice, a meeting of the citizens took place at the Golden Eagle Hall on Monday evening last, for the purpose of taking measures to raise a sufficient sum of money to purchase a Hose and Carriage for the fire company, which had been previously organized. Charles Seffens was called to the chair and E. B. Boust chosen Secretary. A committee of five, consisting of Messrs. Hillhouse, Adler, Arnstein, Boust and Seffens were appointed to solicit subscriptions, and we understand, as the result of their labors, that $792 50 was subscribed. We are not advised whether or not this sum will be sufficient for the purposes mentioned, but incline to the opinion that it will. For worthy objects our citizens "come out" with commendable liberality.

A dispatch of the 9th says: The treasure captured among Jeff. Davis' effects has been counted at the Treasury Department. It amounts to $87,878 in gold, mostly old coinage; $8,822 in silver; 146 pieces of foreign coin, gold and silver, (value not yet estimated,) and 56 bricks of silver, weighing over five pounds each, the estimated value of which is $100 each. The value of the whole is somewhere over $100,000.

PAPER AT COLFAX.—We learn that H. W. Waite, from Grass Valley, intend to start a first-class daily paper at Colfax. It will be called the Colfax Daily News, and the first number will appear about the 15th instant. Send us your Prospectus, Waite.

HIGHWAY ROBBERY.—A teamster was robbed November 3d, on the road from Nevada to Washington, Nevada county, of about $18. The robbers were armed with six shooters.

JEFF. DAVIS.—It is said that arrangements for the trial of Jeff. Davis have been completed and that the trial will soon commence in Richmond or Washington.

THE Custom-house and Post Office, San Francisco, are being strengthened with iron rods and repaired as the City Hall has been. Cause, earthquakes.

MORE ROCK.—Several heavily laden ox teams arrived in Nevada lately with quartz rock from the Excelsior District, Summit City.

HOSE COMPANY.—A number of our citizens have organized a hose company. A Ball, we believe, will be given for the benefit of the company on Thanksgiving.

WOOD AND COAL FOR SALE.

A LARGE QUANTITY OF SPRUCE, OAK AND PINE WOOD, delivered in quantities to suit purchasers. Also on hand about

1000 Bushels of Charcoal,

Which will be sold on reasonable terms. All orders left with O. N. SWIFT, at the Drug Store, will receive pr mpt attention. jy1 1m

75,000
MACHINES SOLD IN TWO YEARS.

Singer Manufacturing Co.
SEWING MACHINES,
130
Montgomery Street, San Francisco.

Notice.—The Singer M'f'g Co. is the only Machine that will sew all kinds of cloth with all kinds of thread.

The almost incredible increase in the sale of the Singer Machine during the past two years is owing to the popularity of the **letter A transverse shuttle** Family Machine, which was introduced in 1860, since which time it has earned and established a reputation for family uses equal to the celebrated manufacturing machines of this firm, which are generally acknowledged even by dealers in other sewing Machines, to be unequalled for such purposes.

☞ NO OTHER Family Sewing Machine has such perfect and improved appliances for Ruffling, Hemming, Binding, Felling, Tucking, Gathering, Gauging, Braiding, Cording, Quilting, etc.

☞ For all persons requiring information about our Sewing Machines, their sizes, prices, working capacities, and the best method of purchasing, can obtain it by sending for a copy of the

Singer Manufacturing Company's Illustrated Pamphlet

Which is entirely devoted to the subject. It will be sent gratis, with specimens of work.

LIBANUS CHAPTER, No. 17, R. A. M., Meets at their hall in Iowa Hill, every Thursday on or preceding the full moon of each month.

Companions in good standing are fraternally invited to visit.

J. H. NEFF, H. P.
W. D. LAWRENCE, Secretary. 46tf

CALIFORNIANS should test the merits of DR. HOSTETTER'S STOMACH BITTERS. Well it is highly palatable as a beverage, it is unequalled as a tonic and invigorator. In the pursuit of fortune at the mines, many persons are exposed to the attacks of complaints of the digestives organs, and various kinds of fever. It is the very article that has so long been in demand in the mines. Its daily use will restore the tone of a deranged stomach, impart fresh vitality to the digestive functions, and ease the spirits. Yet the Bitters is the safest of all stimulants. Let the miner who is exposed to hot and dry, wet and cold, be certain to obtain a supply of the genuine Hostetter Bitter, and he will find it a certain safeguard to health. je17 1m

HOPE FOR THE AFFLICTED.—In another part of this paper will be found the advertisement of the celebrated Institute established by Dr. J. C Young, in 1850. In this age of deceit and charlatanism it is a boon to the suffering to point out to them where they are sure of obtaining the wished for relief and cure. Under the care of the skillful Doctor the sick and troubled can divest themselves of their burdens of pain; lay aside their cross, and secure health and happiness. If you are sick or in trouble, do not hesitate. Read the advertisement and follow the advice. Do not forget the number nor the manner of addressing your letters. Consultation Office, 540, Washington street, San Francisco. my5 3m

Medical Advice.—DR. WM. K. DOHERTY'S Medical and Surgical Institute is becoming a sine qua non to the welfare of our State and health of our citizens; and his rapidly spreading reputation, although it may excite surprise, is but the signal of skill, and follows as the natural result of such a cause. We are personally acquainted with gentlemen who had suffered for years under chronic disease, and who had taken advantage of every available means that promised relief, but without success, until they called upon Dr. Doherty who, in an incredibly short space of time, has given them entire relief. It is gratifying to announce this fact, because the Dr. is a gentleman who seeks, not by defamation of others, to establish his reputation or rule of another's fame. The Doctor conducts his own Institute in such a manner that must be gratifying to all his patients. He examines, advises, and upon mendment without charge, and the path of, after hearing his te mode treatment, can accept or reject at pleasure. In no case does the Doctor make a charge, unless he effects a cure. This he is able to do, because he feels the confidence which long experience has given, and no doubt the consolation which appertains to that confidence. Persons afflicted with either acute or chronic disease, would do well to consult the Doctor; at all events, it can do no harm, as the consultation he asks no fee; nor does he insist on obedience to his advice unless the patient places himself under his care. His offices are on Sacramento street, opposite the Pacific all Steamship office.—*S. F. News.*

DUTCH FLAT SAW MILL.

THE ABOVE SAW MILL being the oldest established mill now in operation in the vicinity of Dutch Flat having been lately repaired is now capable of cutting lumber equal to the most celebrated mills in Placer county. We have on hand a general assortment of seasoned and green lumber, hard and soft lumber, and having

Reduced the Prices

to correspond with the times, will sell as low if not a little lower than any other Saw Mill in this vicinity.

We are now receiving in the yard a large and superior lot of saw logs, and can fill orders for lumber with dispatch, of all usual dimensions, varying in length from 10 to 30 feet.

Being situated within a few hundred yards of Dutch Flat, and convenient to most of the valuable mining claims, offer superior inducements to

Builders and Miners,

Who will find it to their interest to give us a call before purchasing elsewhere.

☞ Lumber delivered to any point within ten miles.

DISTRICT COURT SUMMONS.

STATE OF CALIFORNIA, County of Placer, District Court of the 14th Judicial District of said State.

The People of the State of California, To Johanna Vogel, Ephraim Vogel, Rachel Vogel, Rebecca Vogel, Sarah Vogel Edwin Vogel and S. Heyman, Greeting:

YOU are hereby summoned to answer the complaint of E. L. Bradley in said Court, filed against you, within ten days from the service of this Writ, exclusive of the day of service, if served on you in this county, but if served on you without said county, and within said District, twenty days; and if served on you without said county and District, then in forty days from such service, exclusive of the day of service, in an action commenced on the 7th day of April, 1864, in said Court, to obtain a judgment against you, S. Heyman, administrator of the estate of Louis Vogel, deceased, for the sum of One hundred ($100) dollars and interest thereon from May 9th, 1861, at the rate of 2½ per cent. per month, alleged to be due to Plaintiff on a certain promissory note of Louis Vogel, deceased, of the date and for the amount above mentioned, and also for a decree of foreclosure against certain property mortgaged by the said Louis Vogel, deceased, to secure the payment of the same and that the interest or claim of all the defendants above named in and to said mortgaged property be declared subsequent and subject to Plff's said mortgage, and also for costs of suit, all of which you will find more fully set out in complaint on file a certified copy of which is herewith served and you are hereby notified that if you fail to answer the complaint as directed, Plff will take judgment against you by default as prayed for in complaint and apply to the Court for the relief demanded.

In witness where, I, D. W. Spear, Clerk of the Fourteenth Judicial District Court aforesaid do hereunto set my hand and impress the Seal of said Court, at office in Auburn, this 8th day of April, 1864.

D. W. SPEAR, Clerk.

It appearing to my satisfaction by the affidavit of E. L. Bradley, the above named plaintiff that the deft's Rachel Vogel, Sarah Vogel, Rebecca Vogel and Edwin Vogel above named have departed from the State of California; that their present residence and the residence of each of them is to the plff unknown, and it likewise appearing that plff has a good cause of action herein and that the above named Rachel Vogel, Sarah Vogel, Rebecca Vogel and Edwin Vogel are necessary and proper parties to said action and that summons has been issued in said action, on motion of Tweed & Craig, atty's for Plff, it is ordered that service of the summons in said action, (hereto annexed) be had upon said deft's, Rachel Vogel, Sarah Vogel, Rebecca Vogel and Edwin Vogel by the publication of said summons in said action in the THE DUTCH FLAT ENQUIRER, a newspaper printed and published at Dutch Flat, in the County of Placer, once a week for the period of three months.

T. B. MCFARLAND, District Judge.

Attest: D. W. SPEAR, Clerk.

MISCELLANEOUS ADVERTISEMENTS.

QUICK CURES, SMALL CHARGES.

ELECTROPATHIC INSTITUTE,
645 Washington Street, San Francisco,
ESTABLISHED FEBRUARY, 1860, BY AN ASSOCIATION OF SCIENTIFIC GENTLEMEN FOR THECUE OF DISEASES, AND THE SUPPRESSION OF QUACKERY.

Truths for the Afflicted.

This splendid establishment was inaugurated in February, 1860, by an association of Scientific gentlemen, that there might be a Medical Establishment in San Francisco, where the afflicted could find scientific and honorable, as well as humane, treatment. *Outrageous Quackery* had so long run rampant over afflicted humanity that all confidence was being lost in the Medical Profession, and it was time that there should be an Institute where the afflicted could apply with the certainty of honorable and Scientific treatment. And the result has thus far exceeded the most sanguine expectations of its founders.

Thousands have been made to rejoice in returned health who had been trifled with by the numerous vampires that abound upon this coast, the chief of whom has been obliged to close out and leave the country; but still there are some left of whom the afflicted should beware.

The basis of the treatment at the Institute is the Electropathic System. The Physician and Surgeon who has been a Professor in one of the best Medical Colleges in America, and who has made a special study of Chronic Diseases for the last fifteen years, is thoroughly qualified to treat by medicine, and will warrant a perfect and permanent cure in the shortest possible time. All long-standing cases of disease no matter what may be their nature, give way under the course of treatment pursued at the Institute, and the result is perfect health and a strengthened constitution where it has been injured.

It would be useless to enumerate the diseases as it would be occupying space to no purpose. Every nameable complaint to which humanity is liable, can be cured by the faculty at the Institute.

No mercury is used upon any consideration. All medicines prescribed are vegetable, and in cases where the patient can remain in the city, and wishes to be treated by Electricity, no medicines will be used. All medicines are electrized, which makes them much more active, and destroys all nauseous taste, making them as palatable as wine.

The Directors wish to speak of specialities more extensively than of other complaints, because empirics have used more deception about them than they have about the regular troubles of the human family. And first on the list is that dreadful malady denominated Seminal Weakness, or Spermatorrhœa, a complaint which not only affects the body with pain and lassitude, making life a burden, but affects the brain, creating *Insanity*. It drives more men to the mad house than all other diseases added together. By the Electropathic System this terrible trouble gives way, and the hitherto emaciated victim is made to rejoice in perfect health.

Next upon the list is Venereal, in all of its terrible forms and phases.

It is impossible to paint this disease in colors sufficiently terrible to do it justice. It is the most awful disease to which the human family is liable, and if not arrested when active, making him a loathsome mass of living corruption. It is also one of the most insidious diseases in the world. While the exterior shows no symptom, the orrible disease is sapping the foundations of life, preparing to attack its vital parts, as soon as the patient shall by some indiscretion weaken the system. Reader, if you have ever had this awful disease in any form whatever, call at once at the Institute, and the physician there will examine you and tell you if you have any of the virus in your blood. In such cases consultations are always gratis, and should you have any of the dreadful complaint about you, a cure will be warranted in a short time, or no charges will be made for servicems.

Strictures.

This terrible affection, which badly affects the nervous system as to prevent sound and health giving sleep, should be attended to in its early stages, or an operation both painful and dangerous will have to be resorted to. It is usually first indicated by darting pains in the parts, but very light and hardly noticeable at first, increasing gradually, until they become troublesome, sometimes accompanied by slight irritations in the passage of urine—*A quick cure* is easily performed at the Institute if early application is made.

To Females.

Your delicate organizations should be treated with great scientific care. At the Institute you will find a kind physician, who can at once discover your disease or trouble, and sympatize with you in your affliction. Should you be irregular you can get relief, no matter what may be the cause. You need not ear to call on account of the delicacy of consultation for the utmost secrecy will be insured at all times, and the resident physician will treat you in the most honorable manner, giving you all the assistance and advice, both medical and surgical, that you may re quire. *Private apartments, especially for Ladies.*

Preventive.

Dr. J. H. Josselyn's celebrated Preventive for married ladies can be obtained only at the Institute. Price, Ten Dollars.

Warranted to prevent pregnancy. Can be used without any inconvenience, and is good for one year if directions are followed.

This Magnetic Preventive is not infurious, but is conducive to health, and can be used without the knowledge of any one but the party using it.

To sum up, there is no place where the medical profession is practiced in the State of California, wherein the same amount of scientific attainments are employed, and, consequently, where the afflicted can be so well treated, and be as sure of a cure, as at the Electropathic Institute, 645 Washington street, (south side,) a few doors below Kearny.

Reader, if you are sick and need medical assistance call there before employing any one else, and judge for yourself. You will there find the best consulting, as well as the best operating talent in the State, together with the only Electropathic Instrument that can be depended upon in the curative process.

Medicine sent to all parts of the State, Oregon and Nevada, upon the receipt of a letter describing the case.

All letters must be directed to J. H. JOSSELYN, M. D., Resident Physician, Electropathic Institute.

Dr. H. JOSSLYN has no connection with any otherestablishment or Institute in this city.

All letters answered with promptness and pleasure, and the utmost secrecy observed. Address

J. H. JOSELYN, M. D.
Electropathic Institute,
645 Washington Street, San Francisco.

PRIVATE MEDICAL AID.
Quick Cures and Moderate Charges.
DR. W. K. DOHERTY'S
Private Medical and Surgical Institute,
Sacramento Street, below Montgomery, opposite the Pacific Mail Steamship Co.'s Office.
Private entrance on Leidersdorff st., San Francisco.

Established expressly to afford the afflicted sound and Scientific Medical Aid, in the treatment and cure of all Private and Chronic Diseases, cases of secrecy and all Sexual Diseases.

To the Afflicted.

DR. W. K. DOHERTY returns his sincere thanks to his numerous patients for their patronage, and would take this opportunity to remind them that he continues to consult at his Institute for the cure of chronic diseases of the Lungs, Liver, Kidneys, Digestive and Genito-Urinary Organs, and all private diseases, viz: Syphilis in all its form and stages, Seminal Weakness, and all the horrid consequences of self-abuse, Gonorrhœa, Gleet, Strictures, Nocturnal and Diurnal Emissions, Sexual Debility, Diseases of the Back and Loins, Inflammation of the Bladder and Kidneys, etc., etc., and he hopes that his long experience and successful practice will entitle to receive him a share of public patronage. By the practice of many years in Europe and the United States, he is enabled to apply the most efficient and successful remedies against diseases of all kinds. He uses no mercury, charges moderate, treats his patients in a correct and honorable way, and has references from men of known respectability and high standing in society. All parties consulting him, by letter or otherwise, will receive the best and gentlest treatment and implicit secrecy.

DR. DOHERTY would call attention to the following certificates from two of his patients, who having fully recovered their health, desire to make known their remedial agent. It will be seen their statements are fully authenticated by a Notary Public.

The welfare of society imperiously demand their publicity, and they are given more to warn the unwary than to sound the praises of a Physician, of whom hundreds of like cases can be cited, during a practice of more than fifteen years.

Dr. Doherty—Dear Sir: I feel my health so fully restored, that in common gratitude, I believe I should make you some written acknowledgment for your valuable services—particularly so as your fee was small for the work performed.

I arrived in this city from the East about one year ago, and was then suffering from an old case of Gleet, complicated with Stricture. Being a stranger in this city, and believing those Doctors who gave such positive assurances of success were necessarily the best (some of whom have a large number of titles), I placed myself in their charge and continued under their treatment until I had lost nearly all hope and a considerable sum of money.

I wish to say now that you are the sixth Doctor I have employed, and the only one that has ever done me any service. My Gleet is wholly cured, the Stricture is all removed, and my general health is better than it has been for years.

In conclusion I would say to the many unfortunates who require medical advice, if you have any doubt as to whom you may employ, ask Dr. Doherty for my address and call and see me. (I keep store in this city.) My experience may save you many dollars.

I would also add that in the early stage of my disease, I used a large amount of the preparations advertised as an infallible cure for Gonorrhœa, Gleet, etc., but never derived any benefit from them.

I am, Dear Sir, very truly yours, L—— H——.

San Francisco, June 16, 1864.

Subscribed and sworn to before me, this 1st day of June, A. D. 1864.

[L. S.] A. S. GOULD, Notary Public.

SEMINAL WEAKNESS—A SWORN-TO CERTIFICATE OF MOST REMARKABLE CURE OF SPERMATORRHŒA.

A desire to benefit humanity, and a feeling of gratitude to Dr. W. K. Doherty, alone induces me to make this statement. For many years I have been afflicted with that fearful disease known as "Spermatorrhœa," or Seminal Weakness, the result of selfabuse, but till 1855 experienced but little trouble or inconvenience. In that year however, I had Seminal weakness to an alarming extent, which was soon followed by the most alarming symptoms as weakness of the back and limbs, pain in the head, dimness of vision, nervousness and general debility. My mind, too, was afflicted to such an extent as to seriously impair my memory; my ideas were confused and spirits depressed. I was averse to society, had evil forebodings and self-distrust, and was entirely unfitted for any of the duties of life. From 1855 to the summer of 1863, I employed the very best medical talent I could find, and spent several hundred dollars, but in no instance obtained more than temporary relief. I had about concluded there was no relief for me in this world, but seeing Dr. Doherty's advertisement, I thought I would call and see him, as he charged nothing for consultation. I had an interview with Dr. Doherty at his office, in Sacramento street, and his fee for treatment was so reasonable, I determined to try him, though I did not expect much benefit from his treatment. On the 5th of December last I placed myself under his care; in one week I found myself very much improved, and now, after five weeks' treatment, I feel myself thoroughly cured of all my troubles and in the enjoyment of the best health. Hoping that my experience may be of benefit to others similarly afflicted, I subscribe myself JAMES JOHNSTON.

Subscribed and sworn to before me, this 15th day of January, A. D. 1864.

[L. S.] A. G. RANDALL, Notary Public.

To Females.

When a female is in trouble, or afflicted with disease, as weakness of the back and limbs, pain in the head, dimness of sight, loss of muscular power, palpitation of the heart, irritability, nervousness, extreme urinary difficulties, derangement of digestive functions, general debility, vaginitis, all diseases of the womb, hysteria, sterility, and all other diseases peculiar to females, they should go or write at once to the celebrated female doctor, W. K. Doherty, at his Medical Institute, and consult him about their troubles and disease. The Doctor is effecting more cures than any other Physician in the State of California. Let no false delicacy prevent you, but apply immediately and save yourself from painful sufferings and premature death. All Married Ladies, whose delicate health or other circumstances prevent an increase in their families should write or call at Dr. W. K. Doherty's Medical Institute, and they will receive every possible relief and help. The Doctor's offices are so arraged that he can be consulted without fear of observation.

To orrespondents.

Patients residing in any part of the State, however distant, who may desire the opinion and advice of Dr. Doherty on their respective cases, and who think proper to submit a written statement of such, in preference to holding a personal interview, are respectfully assured that their communications will be held most sacred. Dr. Doherty takes this opportunity of observing, that all letters are only opened and replied to by himself, and the latter as promptly as possible.

If the case be fully and candidly described, and the usual fee of ten dollars enclosed, (by express or in a registered letter) personal communication will be superseded, as instructions for diet, regimen, and the general treatment the case itself (including the remedies), will be forwarded without delay, and in such a manner as to convey no purport of the letter or parcel so transmitted.

☞ Consultation at the office FREE. By letter, $10 Permanent cure guaranteed, or no pay. Address,

W. K. DOHERTY, M. D.,
jy1 3m San Francisco, California.

MEDICAL.

HEALTH
HELMBOLD'S
FLUID EXTRACT BUCHU

For Non-Retention or Incontinence of Urine Inflammation or Ulceration of the Bladder or Kidneys, Diseases of the Prostrate Gland, Gravel, Stone Deposits, Dropsical Swellings, Organic Weakness, Impotency, Female Complaints, &c.

HELMBOLD'S
FLUID EXTRACT BUCHU
AND
Improved Rose Wash

Will radically exterminate from the system Diseases arising from Habits of Dissipation, at little expense, little or no change of diet, no inconvenience or exposure, completely superseding those unpleasant and dangerous remedies, *Copaiba* and *Mercury*, in curing these diseases.

USE HELMBOLD'S
FLUID EXTRACT BUCHU

In all Diseases of the Urinary Organs, whether existing in MALE or FEMALE, from whatever cause originating, and no matter of how long standing. It is pleasant in taste and odor, IMMEDIATE in action, and more strengthening than any of the preparations of Barley or Iron.

Those suffering from a Broken Down or Delicate Constitution, procure the Remedy at once.

The Reader must be aware that however slight may be the attack of the above diseases, it is certain to affect his *Bodily Health, Mental Power and Happiness*. If no treatment is submitted to, Consumption or Insanity may ensue.

All the above diseases require the aid of a diuretic.

HELMBOLD'S EXTRACT BUCHU
Is the Great Diuretic.

HELMBOLD'S
HIGHLY CONCENTRATED
Compound Fluid Extract Sarsaparilla,

For purifying the blood, removing all diseases arising from excess and Impudence in life, chronic constitutional diseases arising from an impure state of the blood, and the only reliable and effectual known remedy for the cure of Scrofula, Scall Head Salt Rheum, Pains and Swelling of the Bones, Ulcerations of the Throat and Legs, Blotches, Pimples on the Face, Tetter, Erysipelas, and all scaly eruptions of the skin, and beautifying the COMPLEXION.

AND HAPPINESS

NOT A FEW

Of the worst disorders that afflict mankind arise from the corruption that accumulates in the Blood. Of all the discoveries that have been made to purge it out, none can equal in effect HELMBOLD'S COMPOUND EXTRACT OF SARSAPARILLA. It cleanses and renovates the Blood, instils the vigor of health into the system, and purges out the humors which make disease. It stimulates the healthy functions of the Body and expels the disorders that grow and rankle in the Blood. Such a remedy, that could be relied on, has long been sought for, and now, for the first time, the public have one on which they can depend. Our space here does not admit of certificates to show its effects, but the trial of a single bottle will show to the sick that it has virtues surpassing anything they have ever taken.

Two tablespoonsful of the Extract of Sarsaparilla, added to a pint of water, is equal to the Imbon Hot Drink, and one bottle is equal to a gallon of the Syrup of Sarsaparilla, or the decoction as usually made.

The above Extracts are prepared on purely scientific principles—in Vacuo—and embody the full strength of the ingredients entering into their composition. A ready and conclusive test will be a comparison of their properties with those set forth in the U.S. Dispensatory.

HOW TO USE THE REMEDIES.

In Diseases of the Blood, Humors on the Face, or any an Fever y part of the body, use Extract Sarsaparilla, applying to Pimples and all external Humors or Eruptions the Improved Rose Wash.

Use the Extract Buchu for all diseases requiring the aid of a Diuretic, except those of the Urinary Organs, such as Gonorrhœa and Gleet; in these use the Extract Buchu and Inject with the Improved Rose Wash.

☞ THESE EXTRACTS HAVE BEEN ADMITTED TO USE IN THE UNITED STATES ARMY, and are in daily general use in all the STATE HOSPITALS AND PUBLIC INSTITUTIONS throughout the land, as well as in private practice, and are considered as invaluable remedies.

The California Fly Killing Liquid.

FLY PAPER KILLS ITS THOUSANDS. THE LIQuid Fly Killer its tens of thousands. This preparation for killing flies gives the greatest satisfaction of anything ever yet used. It is now improved to the highest killing point. It is of such a nature and so speedy of effects, that the flies will not spot the walls and windows, which makes the use of other preparations so objectionable.

The Bar
Is at all times furnished with the best liquors, wines and cigars, and

The Table
with game and fish, and such other delicacies as is possible to be obtained either in the cities or the mountains.

N. B.—Persons can always be supplied with saddle horses or vehicles at this house to visit any of the neighboring localities. A daily stage passes the door twice a day to from Virginia City. Oct. 1.-tf.

MEDICAL.

PRIVATE MEDICAL INSTITUTE
Established by
DR. J. F. [illegible], IN 1850.
FOR THE CURE OF ALL PRIVATE DISEASES AND ALL FEMALE COMPLAINTS.

CONSULTING OFFICE,
590 WASHINGTON STREET,
SAN FRANCISCO, : : : : : : CALIFORNIA
NO CURE, NO PAY.

Consultation by letter or otherwise, FREE. For direction of letters, see below.

THIS CELEBRATED INSTITUTE

has enjoyed on this coast an uninterrupted success of fourteen years, and has become one of the renowned Hospitals of the age. What the celebrated Lock Hospital is to London, and the no less renowned establishment of Ricord is to Paris, this Institute has become to the Pacific coast. The thousands annually received and cured place it in point of number of patients among the very first of the world, and the success of its treatment ranks it second to none.

PRIVATE DISEASES IN MALES and IRREGULARITIES in FEMALES are the great destroyers of health. They insidiously attack the system, and gradually undermine and destroy it; they drive the bloom from the cheek, the lustre from the eye, the strength and vigor from the frame; they give to the world puny and diseased offspring, and poison, through successive generations, the race of man. The weeds can be seen in Scrofula, Consumption, Cripples, the Idiotic, the Paralytic, the Insane, etc.

There is no more terrible scourge to the human race than these diseases arising from the contamination of Venereal Poison. The subtlest poisons, by cultivating in the blood, hold over the one afflicted, the sword of destruction that is liable at any moment to fall and blight—to utterly destroy—all earthly hope. MERCURY, *recognized as the most fatal medical enemy to man*, combining with the Vital fluids, doubles in dangers. Those who have been treated with that pernicious *mineral poison* are not cured; the disease has only assumed a new form.

Do not be Satisfied with Partial Cures

that leave the poison to ferment through the system, eating its way in the bones and organs, beneath the apparently smooth surface, to burst out in the future, with a virulence that will baffle the effects of medicine. WHEN PERFECT CURES can be obtained by consulting a physician with a long practice and thorough investigation into the causes of DISEASES of the URINARY ORGANS enables to determine at once the nature of the disease.

In all diseases entrusted to the Doctor's care, PERFECT SPEEDY and PERMANENT.

Cures are always Guaranteed.

In syphilis and its concomitants, Gonorrhœa and its accompanying diseases, seminal diseases of the Bladder, Kidneys and prostrate; Seminal Weakness; Diseases of the Heart and Lungs; Dyspepsia; Indigestion; Impotency; Incipient Consumption, and all diseases of the urinary organs, in either sex, cure always warranted, OR NO PAY REQUIRED at the

Private Medical Institute,
No 590 Washington street, San Francisco, Cal.

SPERMINAL WEAKNESS OR SPERMATORRHŒA.

The young man who experiences that growing weakness in his muscular and mental organization should stop to consider whence it arises. He will find in the weakness of the back, trembling of the limbs, disordered digestion, unaccountable failing of the powers of the mind, distaste for society, dread of impending responsible, forebodings of evil sleeplessness, troubled and delirious dreams accompanied by growing weakness, loss of muscular power, and nine-tenths of the symptoms of disorganization, the positive traces of that most terrible and destructive of all diseases, Seminal Weakness—wasting away his powers, destroying his hope of life and manhood, and dragging him along the broken path of his existence toward a premature and loathsome grave. To him who finds the life draining out in the discharge of the vital principal of existence in nocturnal and diurnal emissions the mere cessation of its appearance brings no assurance of relief.

Marriage, that holy office, the safeguard and hope of manhood, brings to such an one a hope of cure, but adds to his misery in the knowledge that the one who looks to him for so much of her happiness, is a victim of disease, and an innocent companion of his punishment. He adds to his misery and murder until hope leaves him. There is no rescue except in proper and skillful treatment. Consult then, at once, a physician whom long practice and careful research has made thoroughly conversant with every phase of the disease. Those who have become the victims of solitary vices, that dreadful, fascinating and destructive habit, which fills thousands of sick rooms with paralytics and consumptives, and hundreds of untimely graves with its misguided victims, should consult, without a moment's delay, one who will sympathize with their sufferings. To such the Doctor would especially address himself, giving to each and all assurance of a PERFECT and PERMANENT CURE *with no hindrance from business, change of diet, or fear of exposure.*

Do not forget the address. See below.

Important to Female

When a female is in trouble or afflicted with disease and requires medical or surgical assistance, the enquiry should be, Where is there a physician who is fully competent to administer relief, and who by respectable standing in society recommends him to the confidence of the community? The Doctor, understanding fully how imperatively necessary these requirements are, feels called upon to interpose, and by the attention of the afflicted to the fact that he has been a *Professor of Obstetrics and Female Diseases* for twenty years, and is fully qualified to administer in all cases, both medically and surgically, not in a superficial manner, but in as thorough a manner as years of study and practice—both in hospitals and private families—can make, to save them from the horrors of the unskilled, unscrupulous and designing. Therefore families can rely upon him as upon a father. All in affliction can find in him one who can feel and sympathize with and befriend them in trouble—one in whose secrecy and the utmost confidence can be placed. *Consultation, by letter or otherwise, Free.* See address below.

THE CELEBRATED FEMALE PILLS, compounded from the private prescription of Dr. Young, have now obtained a most extended popularity, and are correctly viewed to be the safest and surest remedies for the complaints for which they are applied. The constantly recurring testimonials of their efficacy declare them to be pre-eminently superior in their action. No lady should be without these Renovating Agents. None genuine unless procured at this office.

Sent by Mail or Express, to any part of the State. THE GREAT FEMALE MEDICINE! PREVENTIVE POWDERS FOR MARRIED LADIES. New, Safe and Infallible, lasting from four to six months. Price $10. French Lunar, or Female monthly Pills, for suppressions. After fifty years of use these pills stand unrivalled in efficacy. Price $5 per box.

To orrespondents.

Patients residing in any part of the State however distant, who may desire medical advice on their respective cases, and who think proper to submit a written statement of such in preference to holding a personal interview, are assured that their communications will be held most sacred.

All letters must be addressed to the corresponding physician, thus:

SCHEDULE STAMP DUTIES.

The following is a correct copy of the new schedule of stamp duties under the new revenue law, which took effect on August 1st, 1864:

Acknowledgment of deeds	Exempt
Affidavit	5 cts
Affidavit in suits or legal proceedings	Exempt
Agreement or appraisement (for each sheet or piece of paper on which the same is written)	5 cts
Assignment or transfer of mortgages, lease or policy of insurance, the same duty as the original instrument.	
Assignment of patent right	5 cts
Bank checks: drafts or orders, etc., at sight or on demand	2 cts
Bills of exchange (foreign) drawn in but payable out of the United States (if drawn singly or in duplicate) pay same duty as inland bills of exchange.	
[The acceptor or acceptors of any bill of exchange or order for the payment of any sum of money, drawn or purporting to be drawn in any foreign country, but payable in the United States, must, before paying or accepting the same, place thereon a stamp indicating the duty.]	
Bills of exchange (inland), draft or order, payable otherwise than at sight or on demand, and any promissory note, whether payable on demand or at a time designated (except bank notes issued for circulation and checks made and intended to be, and which shall be presented forthwith for payment) for a sum not exceeding $100	5 cts
For additional $100, or fractional part thereof	5 cts
[The warrant of attorney to confess judgment on a note or bond is exempt from stamp duty, if the note or bond is properly stamped.]	
Bills of lading of vessels for ports of the United States or British North America	exempt.
Bills of lading, or receipt for goods, to
